Summary

Persistent and critical thinker data analyst with an extensive background in architecture. Passionate about problem solving, I bring strong research and analytical skills across various fields, with a deep awareness of user experience. Experienced in high-stakes projects and skilled at identifying patterns, uncovering insights and making thoughtful data-driven decisions.

I have a strong work ethic and a quick grasp of new tools and technologies. I thrive in diverse roles and dynamic settings, where adaptability and curiosity are key.

I'm ready to take on challenges and I am not afraid to propose new ideas or ask questions. To me, feedback is a gift, and differing opinions are an opportunity to learn and grow.

"We are What We Repeatedly Do. Excellence is Not an Act, But a Habit." Aristotle

Soft skills

- Strong organizational, prioritization and scheduling expertise with management experience.
- Quick adaptability to new tools, technologies, and environments.
- Clear and direct communicator. Fluent in **English**, native **Hebrew**, and Intermediate in **Portuguese.**
